Team

Projonmo Digital Limited was established in 2017. We began our journey as a Design and Marketing company in Dhaka, Bangladesh. What started as a small team has now grown into a full-service digital marketing company with located in office 4 different countries. We work closely together to ensure smooth campaign development and execution for all of our clients. We work with businesses of all sizes – from startups to large franchises – in most industries and niches.

Our team of enthusiastic, energetic, and dynamic designers and developers work together to deliver the most powerful and innovative solutions. We are a team of fully devoted and well-experienced professionals who have never failed to provide an award-winning technology solution to our clients. We work neither to exceed the cost and effort nor to fall behind on the objectives. We are totally concerned about providing 100% project delivery in terms of time, cost, design, and performance.

We make every effort to provide the utmost technology solutions to every business and individual through creative and ingenious inputs and envision leading the global tech world through abstract service in optimizing online visibility and digitalization.

Our Vision

We envision to lead the global tech world through abstract service in optimizing online visibility and digitalization of every single business: start-up, SME or large enterprise.

Our Mission

Projonmo Digital Ltd strives to provide cutting-edge technology solutions to your business and brand through creative and ingenious web design and development, software development, mobile app development, digital marketing, graphic designing and domain & hosting more.

**“ WE DON'T JUST
SELL
WEBSITES,
WE CREATE
WEBSITES THAT
SELL. ”**

WORK METHODOLOGY

1

Analysis

Analysis is the first and most important step for any project. This process is initiated with discussion and a few queries to figure out the nature of the desired project and objectives. We too, analyze the design and functionality of the project that the client has visualized. Analysis helps in creating a basis for other work processes.

2

Strategy and planning

On the basis of requirements and objectives, a framework is derived and presented to the client. A detailed discussion is held to figure out if anything is to be added, improvised, or removed. Here we derive a final outline of design and functionality, develop strategy, and create work plans and schedules for mobilizing manpower and resources.

3

Design and Development

As per the finalized strategy and plans, we proceed towards building the project. Our professional designers and developers use every possible technology to deliver 100% result.

4

Test and Deployment

Following the design and development work, we undergo testing or observation from our side and then provide a demo copy to the client for the same purpose. This helps in figuring out any inaccuracies if present. After amending all the errors and weaknesses, if present, the deployment or delivery of the project is done.

5

Maintenance and upgrade

We have a separate team of experts who provide reliable support for the maintenance and upgrade of our projects. The team works to avoid errors and breaches and ensure that the products are up-to-date with the latest technology and deliver effective and efficient output with excellent performance.

Our Team

The PDL team comprises of 25+ dynamic young enthusiasts who love everything about social media. They are imaginary shadows over social media and follow it wherever it goes.

It is their love for social media that we at Socialee are able to cater diversified clients simultaneously.
